HIGOLD®

KITCHEN SINK PRODUCT

HIGOLD KITCHEN SINK NEW CATALOGUE

KITCHEN **SINK**

Brief Introduction

Guangdong HIGOLD Kitchen Hardware Co., Ltd. is an diversified innovative technology enterprise with high-end functional hardware, intelligent Kitchenware and ecological chain of smart home furnishing, outdoor furniture and e-commerce etc. It is a high-end brand in China's functional hardware industry and has occupied the position of unicorn in the national sales and market share for five consecutive years. With a production area of 200,000 square meters, more than 2,000 employees and 180 of them are in R&D field, HIGOLD Star Factory is currently a large-scale functional hardware R&D and manufacturing base in Asia. HIGOLD as a national high-tech enterprise, owns the national level engineering technology research center and institute, at the same time establishes HIGOLD German design branch in Cologne, Germany, and a joint design institute established by the team of Turin. HIGOLD also build the JV institute with Pininfarina in Italy; with more than 300 independent innovation patents, it is the world-renowned German Red Dot Design Award winner. HIGOLD functional hardware products are selling to 86 countries and regions worldwide, and the marketing network covers the whole world. It has more than 180 general agents in domestic cities and up to 80,000 special cabinet and wardrobe stores, which is a strategic cooperative brand for domestic first-line real estate brands and home furnishing brands. HIGOLD is renowned in the industry by the excellent quality and innovative design.

Founder & President of the HIGOLD group
Mr. Alwin Ou

reddot design award

MR Jinfeng Ou
No. 21, Xinglong Rd, Xingtan Town, Shunde Area
528325 Foshan
China P.R

Essen / Germany, March 2017

Your success in the Red Dot Award: Product Design 2017

Dear Mr Ou

Congratulations! Your product has been awarded in the Red Dot Award: Product Design 2017. On behalf of all Red Dot jurors, allow me to congratulate you sincerely on your success.

This year, we received submissions from 54 countries. The Red Dot Award: Product Design thus stands more than ever for one of the most renowned evaluation processes for good design and innovation. All of the products entered were assessed individually by an independent and international jury of experts.

You have every reason to be proud of your award as you came out on top in a comparison with the best in the industry. Order your Winner Package now, and use the Red Dot Winner Label as well as all of the other benefits for your communication from 3 April. Furthermore, your product will be presented for one year in the Red Dot Design Museum, the largest museum for contemporary design.

I look forward to welcoming you in Essen on 3 July to celebrate your success with you at the Red Dot Gala and the subsequent Designer's Night.

Best regards

Professor Dr Peter Zec
Founder and president of Red Dot

WASTE & OVERFLOW

The sink becomes waste if you can't find a good waste for it. With stainless steel shell, our waste set perfectly match the sinks in color and style. Rubber gasket inside design seals the gap to avoid any leakage.

Overflow, with or without, choice is yours. Redundant water drains from this hole in case you forget to turn off the faucet.

EUROPE SERIES

Intelligent
Kitchen Sink

What pops into your mind while heard the word "Europe"? London Buckingham, Quiet Belgian Town, Champs Elysees, Prague Square or Dutch Red-light District?

Europe, a magical land which cultivated the most ancient and civilized literature, philosophy and science, it is also the world hub for fashion and art. Pursuing ultimacy, the life notion for Europeans, based on which, we create Higold European series sinks.

In this series, every sink embodies the philosophy of European life. Normal single bowl sinks feed the taste of simplicity and purity. Sinks with tray illustrate the streamline design and craving for pragmatism. Butterfly corner sinks present the appreciation for art and aesthetics.

To be more European, you need a Higold European sink.

Handmade Kitchen Sink

DESIGN

Embedded installation design allows the sink and the countertop to blend into one, giving more perfect visual enjoyment and experience.

TECHNIQUE

Rounded corner and straight edge process realizes more rigid and durable product.

QUALITY

304 stainless steel plate and 1.2mm thickness steel resistant to rust for 50 years, fine brushing, high scratch resistance, surface repairable, eternally renewed.

FUNCTION

In addition to the traditional simple washing function of sink, there are more powerful functions: integration of storage and draining makes the sink the center of the whole kitchen.

FEATURES

HIGOLD abandoned complicated and cumbersome sewage system. Instead, simpler sewage system with higher reliability and large-diameter drainage pipe are adopted for efficient drainage.

HIGOLD CREATIVE SERIES

Intelligent
Kitchen Sink

Creation, a combination of wisdom and imagination, is the wheel of human development. Since the founding of Higold, we have been upholding "think big, do something new" as our core value, thanks to which, we have successfully won Reddot Award for several times and solidified our dominant position in kitchen hardware industry.

This series is a collection of smart ideas and new techniques. For example: sink with rear drainer, by moving the drainer set backwards, release more space under cabinet for storage. PVD sinks with nano treatment, feed your picky appetite on colors to perfect match your kitchen, while make the sink more durable and anti-scratch at the same time.

You've never been so proud and confident until you choose a Higold creative sink.

Rear Drainer Kitchen Sink

DESIGN

Initiative rear drainage design, table control and hidden decorative cover, perfect retractable drainage system, maximum utilization of space.

TECHNIQUE

The bottom of the sink is tilt, composite aluminum plastic brushed cover, multiple sunken step design is elegant and practical.

QUALITY

Imported 304 stainless steel and 1.2mm thickness steel resistant to rust for 50 years, fine brushing, high scratch resistance, surface repairable, eternally renewed.

FUNCTION

In addition to the traditional simple washing function of sink, there are more powerful functions. The original hidden rear basin design is not only elegant and practical, but also maximizes the storage space .

FEATURES

HIGOLD uses a table control drainage system with higher reliability and quick-fit large-diameter drainage pipe, making the sink easier to drain water and remove slags.

PRESSING SINKS

Intelligent Kitchen Sink

Pressing sinks or so-called drawn sinks or machine sinks are stamped by toolings. Its thickness ranges from 0.6mm to 1.0mm with numerous designs.

People love it for various reasons, namely, artistic-looking, beautiful curve and the unique sense of integration...

If these advantages are not enough to fascinate you, there are more to come, such as easy to handle, energy saving and cost efficient.

Higold pressing sinks, born for perfectionists only!

Drawn Kitchen Sink

In the hands of the international fashion masters, even a small metal decorative piece could also be clever to make thoughts. Unique shape, access to visual enjoyment but also have a superior quality. Placed in space regardless of any corner, people can not ignore.

Pressing Kitchen Sink

DESIGN

The double sink design takes full account of the different needs of the kitchen and adds agility to kitchen life. Elegance is evident in such a confined space.

TECHNIQUE

Adopting one-piece stretch forming process, the product is flawless, seamless (no joints, watertight) and durable.

QUALITY

304 stainless steel sheets are used. With cold stretching technology, steel sheets are stretched at room temperature and the material is more stable and durable.

FUNCTION

The double sink design realizes reasonable space matching, allowing you to freely enjoy comfortable life in a more scientific space.

FEATURES

HIGOLD uses a simpler water drainage system with higher reliability, large-diameter drainage pipe, stainless steel drainage lift cage, making the sink easier to drain water and remove slags.
